PROFESSIONAL PROFILE

Cybersecurity professional with more than 15 years of technical IT experience. My approach is based on a **360° perspective**: I have hands-on experience building and administering the infrastructures that I now audit. Specialized in SIEM implementation (**Wazuh, Security Onion**), system **hardening**, and automation using **Python and PowerShell**. Committed to continuous learning and the application of offensive methodologies to strengthen corporate defense.

TECHNOLOGY STACK

- **Offensive Security:** Pentesting (Web/Network), Vulnerability Assessment, OSINT, OWASP Top 10.
- **Defensive Security:** SIEM (Wazuh, Security Onion, ELK), Incident Response, Hardening, Log Analysis.
- **Tools:** Metasploit, Nmap, Burp Suite, Wireshark, Kali Linux, Virtualization (Hyper-V, VMware).
- **Scripting & Development:** Python (Automation/Exploits), PowerShell, Bash, C# (.NET), Secure Coding.

PROFESSIONAL EXPERIENCE

Systems and Security Technician | Cybersecurity

R.G.H. Cofer, S.L.

Jul 2021 – Present

- **SIEM Implementation:** Deployment of **Wazuh and Security Onion**. **60% reduction in incident detection time (MTTD)** through custom rules.
- **Hardening:** Server hardening of critical systems using **CIS Benchmarks** to reduce attack surface.
- **Auditing and Pentesting:** Vulnerability assessment in networks and web applications under OWASP methodologies.
- **Automation:** Development of **Python and PowerShell** tools for alert triage and log analysis.

Senior Developer & Software Architect

ConeXtaSoft Soluciones Empresariales

May 2019 – Apr 2020

- Development of critical applications and security hardening of corporate web environments.

Consolidated IT Career (13-year summary)

Añover de Tajo City Council, Entreplazas, Ingenia, Sermicro

2006 – 2019

- End-to-end experience in Systems Administration, Software Development, and Support for critical infrastructures.

EDUCATION AND CERTIFICATIONS

Offensive Security and Pentesting:

- **Hixec:** eJPTv2 Simulation (Successfully passed) (2025).
- **Hack4u (S4vitar):** Practical Introduction to Hacking Course (53h) (2025).
- **Manager Business School:** Cybersecurity and Ethical Hacking for Business (80h) (2025).

Defense and Monitoring (Blue Team):

- **Hacker Mentor:** ISO 27001:2022 Fundamentals Auditor (2025).
- **Security/SI:** Threat hunting in ELK, Introduction to Wazuh, Monitoring with Azure Sentinel (2025).
- **Cisco Networking Academy:** Endpoint Security.

Systems, Networking, and Technical Foundation:

- **Cisco Networking Academy:** Networking basics, Network Devices, and Initial Configuration.
- **Microsoft & LinkedIn:** System administration fundamentals (2024).
- **Academic:** Bachelor's Degree in Computer Engineering - UNED (First year completed, foundational training).

LANGUAGES

Spanish: Native | **English:** Technical (Able to read and work with technical documentation and resources).
